Headlight Aiming, MADE EASY ! FOR PERFECT NIGHT VISION...

A Professional model optical headlight aimer, made to **SAE standards: J599 and J600** as required for provincial inspection facilities. Designed for fleet maintenance operations, Collision and Auto & Truck repair shops. Using a polished OPTICAL grade glass lens, it reproduces the headlight beam's image onto an internal aiming screen, saving over 45 feet of shop space and allowing the technician to be fast and accurate.

Compact Design, Fast & Simple Operation:

- Easy to understand, setup and use.
- No electronics, Virtually maintenance free. Not subject to moisture, dust or rough handling.
- Exclusive tilting base design allows the unit to easily be moved around the shop like a hand truck.
- Reinforced base provides much improved aimer integrity and repeatable accuracy.

FEATURES:

- Accurately Aims **ALL** Headlights. ALL makes, ALL models, ALL years.
- Linear Alignment Visor.
- Precision ground, polished OPTICAL GLASS Lens.
- Calibrated Laser Guided Floor Slope measurement.

Model #
OPT-5405

Product Info &
Presentation
Available at:
www.canbuilt.com

SPECIFICATIONS:

Max Lamp Height:	58"
Floor Slope Accuracy:	.05 degree or less
Floor Slope Measurement:	Calibrated Laser
SAE Standards:	J600, J599
Lateral alignment accuracy:	.1 degree or less
Horizontal accuracy:	.6 degree or less
Vertical Accuracy:	.3 degree or less

SIMPLE, ACCURATE, NO GIMMICKS

- **No** light sensitive coatings on the aiming screen to produce "Colour images" which are prone to fade over time or to be damaged with ordinary sunlight.
- **No** complicated electronics to fail due to moisture, dust or rough handling.
- **No** "plastic" lens to be affected by dirt, dust or airborne solvents.

**** For Quick 5 min check of Headlight Alignment. A NEW PROFIT CENTRE FOR YOUR SHOP ****

NEWS ALERT: Provincial DOT's are now enforcing new regulations, requiring shops to upgrade the old suction cup style headlight alignment tools to accommodate the headlights of newer vehicles that do not have alignment pads and for vehicles with body moulded lamp systems. **Upgrade to the NEW DOT APPROVED Panther Optical Headlight Alignment System.**

QUALITY SHOP EQUIPMENT

Provincial Ministry of Transport inspectors have begun to insist that headlight aiming equipment be upgraded so that ALL vehicle headlamps can be checked and aligned, not just the old style lamps with the alignment nubs using the old suction cup style aimer.

In anticipation of this action by the Ministry, Canbuilt is pleased to offer a value package on the Panther Headlight Aimer, Model OPT-5405. This tried & tested OPTICAL unit is a very robust, accurate and easily understandable that works on **ALL Vehicles, ALL makes, ALL models and ALL years.**

Some of your stores have already seen the advantages of this unit and are using it. Please find on the reverse, a product information sheet on the Aimer for your perusal. In addition, a presentation is available on our website (www.canbuilt.com) along with the very descriptive user manual for the Panther Aimer.

You may want to note the Return on Investment chart below, as many shops are simply "walking by or ignoring" this easily saleable service. Service profits can be enhanced by offering "Free Headlight Alignment Check" as it only requires about 5 minutes to perform the check
