AIR PRESSURE AND MOISTURE CONTROL

FILTER/LUBRICATOR/REGULATOR

Model # FLR-014
1/4" NPT, 2-Piece
Mini Filter/Lubricator/Regulator
Units should be mounted as close to tool as possible for maximum efficiency.

Model # FLR-238
3/8" x 2 Piece
Filter/Lubricator/Regulator

Model # FLR-338
3/8" x 3 piece
Filter/Lubricator/Regulator

Model # FLR-212
1/2" x 2 pc
Filter/Lubricator/Regulator

Model # FLR-312
1/2" x 3 piece
Filter/Lubricator/Regulator

WATER SEPARATOR

Assured point of use protection for air drops and pneumatic equipment. Removes large amounts (1 quart of water/min) of moisture and particulate down to 10 microns. Unique flow separation takes place as the air reverses direction 180 degrees and passes through the stainless steel element. Integral hydro-pump automatically ejects moisture, oil and particulate that collects in the large drain sump.

- Non-corroding sulfuric acid anodized aircraft aluminum in side & out
- Duty rated heavy wet flow: 50SCFM and 120 CSFM
- Super low pressure drop
- Optional drain choices: solenoid or piston
- Large sump prevents carry-over from radical surge flows
- Virtually maintenance free
- Extremely consistent performance from low to high flow
- Corrects improperly plumbed air systems
- OEM's choice for warranty protection
