A Professional model optical headlight aimer, made to **SAE J600 standards** as required for provincial inspection facilities. Designed for fleet maintenance operations, Collision and Auto & Truck repair shops.

Using a polished OPTICAL grade glass lens, it reproduces the headlight beam's image onto an internal aiming screen, saving over 45 feet of shop space and allowing the technician to be fast and accurate.

#### **SIMPLE, ACCURATE, NO GIMMICKS**

- No light sensitive coatings on the aiming screen to produce "Colour images" which are prone to fade over time or to be damaged with ordinary sunlight.
- No complicated electronics to fail due to moisture, dust or rough handling.
- No "plastic" lens to be affected by dirt, dust or airborne solvents.

**ACCURATELY  
AIMS  
All Makes,  
All Models,  
All Years  
Including  
XENON, LED  
and HID**
