RAK JAK

These powerful, easy to use jacks are a MUST if time savings and versatility are key. Widely used on alignment racks, the Rak Jak's speed provide the ultimate tool for tire, wheel and suspension work. Rak Jak is simply the fastest way to install pinch weld clamps on the frame rack.

Model # **RJ-DB2**

Model # **RJ-TB2**

Model # **RJ-TB3**

JACK PAD: Adjustable top swivels 3600 for easy grab of vehicle pinch weld.

AIR SPRING: the convoluted air springs have actually been used for many years as shock absorbers under trucks, buses and heavy equipment. Subject to tremendous loads, these springs cycle hundreds of thousands of times with no maintenance and with proven reliability.

INTERNAL STABILIZER: At the centre of the action is the internal stabilizing system, machined telescoping steel members provide both vertical and lateral stability, yet still allow flexibility during the lifting arc

PRESSURE RELIEF VALVE: Designed to prevent accidental over-inflation, the pressure relief valve takes the worry out of possible misuse.

MODEL	CAPACITY	CLOSED HEIGHT	Extended Height	AIR PRESSURE	WEIGHT
RJ-DB2	2 Ton	5.75"	13.75"	105 PSI	25 lbs
RJ-TB2	2 Ton	6.812"	18"	105 PSI	41 lbs
RJ-TB3	3 Ton	6.812"	18"	105 PSI	61 lbs

OPTIONAL

Add the Retrofit Handle to convert your RakJak to a Service Jack
